ALUMASC ROOFING

Description

Caltech Metal Primer is a cold liquid applied, rust inhibiting, lead and chromate free metallic primer.

Use

For the priming of prepared/weathered, non-rusted steel, galvanised metal, aluminium etc. Not for use on heavily corroded metal, or non-ferrous metals such as copper, lead etc.

Application

- Apply one coat of Caltech Metal Primer at an approximate coverage rate of 0.09 l/m², by brush or short pile roller. Ensure all exposed metal panel edges, cut ends, bolt heads and sharp angles etc. are fully primed.
- Rainproof time: approx. 60 minutes, next coat approx. 60 minutes.
- Rough or highly porous surfaces will significantly reduce the coverage rates. Touch-in suspect areas where necessary.

Storage

- Flammable/combustible – Keep away from oxidisers, heat and flames.
- Store in tightly closed original container in a dry, cool and well-ventilated place.
- Keep in original container.
- Avoid contact with oxidising agents.
- Transport class: UN1263.

Product Data

Drum size	3 litres
Colour	Light Grey
Shelf life	24 months in unopened drums
