

CALTECH METCOAT ASBESTOS

Caltech METcoat High Performance Roofing Systems comprise a two component, cold-applied, moisture-triggered modified acrylic/urethane based resin specifically developed for the refurbishment of mechanically sound existing pitched asbestos roofs. Applied as a liquid coat to form a seamless durable membrane with up to 20 years of waterproof protection, depending on the system specified. Available in an extensive range of colours offering any RAL/BS/NCS shade.

✓ Where to Specify

- Refurbishment
- Overlay to existing asbestos sheets

✓ Durability

When installed on stable substrates the system will have a life of up to 20 years, subject to specification.
