Colour Options

Coatings & Coating Guarantee

For over twenty years ArcelorMittal has been at the forefront of applying weather resistant coatings to high quality steel coils. Granite@HDX is the high quality Thermoset Paint applied to give our range of Ultra 60 coated products their performance guarantee, when used in an external building envelope application, namely roof and vertical panels on industrial and commercial buildings. Guarantees can be up to and including 30 Years on the sheet finishes depending on the external environment and geographical location.

Warranties

Alumasc offers a comprehensive range of single-source warranty options for up to 20 Years. Installed exclusively by Registered Contractors and underpinned by Alumasc's extensive project support service, Alumasc warranties cover product, workmanship, and design.

Technical Support

Alumasc Technical Services can advise on all aspects of product selection, specification and integration of Alumasc systems into any building design. Refer to the product data sheet for further technical information.
